

# Pancreatic Cancer Webinar Series

## Welcome to the first Pancreatic Cancer Webinar Series (PCWS)

Organised by Viatris, in collaboration with the Pancreatic Society of Great Britain and Ireland (PSGBI).

### Listen to an overview of the webinar series from Mr Keith Roberts

This is a promotional webinar series; products and brands may be mentioned. These webinars are initiated, funded and reviewed by Viatris. Viatris is a new global healthcare company formed from the combination of Mylan and UpJohn, a legacy division of Pfizer.

Improving outcomes for patients with pancreatic cancer (PC) is desperately needed, with patients diagnosed in the UK still having a poor prognosis. Currently the average life expectancy for a patient with PC is between 4 to 6 months and only 3% of patients survive beyond 5 years<sup>1</sup>.

This 5-part Pancreatic Cancer Webinar Series (PCWS) will focus on bridging the gap between the variation in care between secondary and tertiary sites, novel treatment strategies, chemotherapeutic agents and the fundamental importance of nutritional failure associated with pancreatic cancer.

The webinar series will provide an overview of the current best practice and is aimed at those clinicians and allied health professionals who treat patients with pancreatic cancer in primary, secondary and tertiary care.

Please continue to report suspected adverse drug reactions with any medicine or vaccine to the MHRA through the Yellow Card Scheme.

It is easiest and quickest to report adverse drug reactions online via the Yellow Card website: [www.mhra.gov.uk/yellowcard](http://www.mhra.gov.uk/yellowcard) or search for MHRA Yellow Card in the Google Play or Apple App Store.

Alternatively, you can report via some clinical IT systems (EMIS/SystemOne/Vision/MiDatabank) or by calling the Commission on Human Medicines (CHM) free phone line: 0800-731-6789. Adverse reactions/events should also be reported to MAH at e-mail address: [pvuk@viatris.com](mailto:pvuk@viatris.com)
